

SMA Black belt Dan Syllabus

1st Dan/Poom Black belt to 2nd Dan/Poom Black belt

- Minimum time needed on 1st Dan/Poom:

1 year from the date your 1st Dan/Poom Kukkiwon Certificate was issued.

SMA 1st Dan/poom Promotion Date:.....

Kukkiwon Certificate No:..... Kukkiwon Certificate Issue Date:.....

How do you get a 2nd Dan or 2nd Poom black belt?

All Kukkiwon certificate applications are acquired through our national body, Australian Taekwondo Ltd (AT).

The only people who can apply for a Kukkiwon certificates are 4th Dan and higher registered and qualified STA 'Head Instructors' such as Gwangjangnim Gary Simmons who is currently registered as a 7th Dan Kukkiwon Master Instructor.

The Shire Martial Arts curriculum that has brought you to this point on your journey has put you in a position where you can go to any other accredited WT Taekwondo school anywhere in the world and know that your knowledge, skill level and standard is at a high level.

As a WT internationally accredited Black Belt you have a strong foundation of kicking and hand techniques, self defence, sparring, poomsae and theory. So now, it's time to focus on your technical skills, and knowledge that the WT association and the Kukkiwon require for your next international accreditation.

If your current certificate is a junior black belt or Poom certificate and you are over 15 years old at the time of your 2nd Dan grading, you will be awarded a 2nd Dan certificate once you pass.

Whatever it takes, as an SMA international Black Belt, we will keep working with you to get through this next critical learning stage.

Therefore, in order for us to allocate the appropriate time that is required to work with you, we need to **BOOK IN a time and a day** for your practice and individual coaching as well as to perform and pass the theoretical components.

Remember, if you are not sure about something... ASK!

How to get your 2nd Dan/Poom Black belt

- 1) Be an active 1st Dan/Poom Black belt for a minimum of 1 year.
- 2) Book yourself into an SMA Dan Assessment
- 3) Pay \$280 by card or cash to SMA at the administration desk. This is then sent off to Australian Taekwondo who process the application before sending it to the Kukkiwon in Sth Korea.

Note:

It takes from 6-12 weeks for Dan or Poom applications to be processed and returned.

Please **print a copy** of this syllabus and place it in a folder for your reference and records

Sparring:

Aim– Controlling an attack by utilising striking combinations

You must organise suitable partners

All protective equipment must be worn or unit cannot be completed

For Poomsae and Basic Movement Drill

The examination will be for your:

1. Knowledge of each technique
2. Execution of each technique and combination
3. Confidence in the way you execute each technique and combination

All of the moves must be done in the following manner

- Co-ordinate your body action with breathing on every move.
- Ensure that you forcibly breathe IN through the nose on the WIND UP of each move and OUT through the mouth on the exact moment of application.
- Use a 'Gihap' on attacking moves and a sharp concentrated breath with defensive moves.
- As well as this, simultaneously use both arms to exaggerate 'Push & pull' preparation before EVERY move.
- Ensure each technique has the correct range of motion by demonstrating a clear beginning middle and end.
- Work out where the 'speed' and 'power' techniques are.
- Ensure each technique has a 'snap' at the end.
- Look before you change direction
- Make the first and last moves the strongest

Poomsae Notes

- Ensure that you do the 'Choombi' stance properly at the beginning and end of the Poomsae
- If you make a mistake, don't say anything. Just go back to Choombi then start again when you are ready. Do not rush!

Theory:

- Do not get ANY help from anyone else.
- Your essay should be in your own words.
- This is not a spelling, grammar or punctuation test. Any such mistakes will have no bearing on your score.
- If you use large fonts, large headings, excessive margins, headers or footers you will be marked down significantly.
- Poomsae terminology should be said in the way it is written to you best ability.

Self Defence 1 - 10

- 1:** Escape from both lapels being grabbed from front on
- 2:** Escape from being grabbed by the shoulder from behind with one hand
- 3:** Escape from one hand grabbing you by the throat.
(Right hand grabbing throat)
- 4:** Hair/head grab from front
- 5:** Bear hug from behind with arms pinned
- 6:** Bear hug from behind with arms free
- 7:** Strangle hold with one arm from behind
- 8:** Full Nelson
- 9:** Head Lock
- 10:** Charge Down

* Please note that the following moves are described with the attacker using their Right arm. For Left side attacks reverse each technique

Key points for each self defence technique:

1: Effectiveness 2: Control 3: Distance 4: Precision

1: Escape from both lapels being grabbed from front on

- 1) Spear hand to eyes with R hand.
- 2) Simultaneously striking both of attackers arms with a downwards hammer fist before stepping R foot backwards and sliding out of reach in L guarding stance (L leg forward).
- 3) R Front snap kick under attackers chin landing in R guarding stance (R Leg forward).
- 4) R jab punch to attackers nose followed by L cross punch to attackers R lower jaw.
- 5) Stepping R foot back and sliding back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Unarmed Self Defence

2: Escape from being grabbed by the shoulder from behind with one hand

- 1) Pivot 180° to the right and land in R back stance (R leg forward) and simultaneously hit attackers R elbow joint with a right outside block.
- 2) Push R Leg forward (from 'tight rope' to 'train tracks') and land into R Forward Stance (R leg forward) and strike attackers R lower jaw with a L Batangson Chigi (Opposite arm to leg)
- 3) Stepping R foot backwards and sliding out of reach in L guarding stance (L leg forward).
- 4) Quickly step back in with a R Axe kick to strike attackers face.
- 5) After you land quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

3: Escape from one hand grabbing you by the throat.

- 1) R Hammer fist striking downwards onto attackers nose
- 2) Simultaneously step R foot back and slightly to the side so you land in L Forward Stance and use a L Inside Block to attackers R elbow (use the stepping action to position yourself to be at 45° to the attacker)
- 3) Step forward with the R leg and land in Horse Riding stance while simultaneously striking the attacker's R Jaw with a R Assisted Elbow Strike
- 4) Slide backwards in R Back stance (keeping R foot forward) and strike attackers jaw a second time with a R Inside Knife hand strike (palm down)
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

4: Hair/head grab from front

- 1) R Kal Jebi to attackers throat
- 2) Step R foot back and slightly to the side so you land in L Forward Stance and use a L Rising Face Block to attackers R elbow
- 3) Immediately strike down on the attackers nose with a Right Hammer Fist
- 4) Slightly lift up left foot and quickly step it back wards as you simultaneously kick attacker under their chin with a R foot Jumping Front Snap Kick and landing in R guarding stance (R leg forward)
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Unarmed Self Defence

5: Bear hug from behind with arms pinned

- 1) Lift up R leg and place the edge of your R foot on the attackers R shin and quickly slide your foot downwards so your R heel stomps on the top of the attacker's R foot (instep)
- 2) Bring your feet together and curve your shoulders while you cross your arms (do not bend elbows) to your front until your R elbow crosses over the top of your L elbow.
- 3) Quickly slide your left foot out so you can sink into a deep horse riding stance as you simultaneously lift your arms into a 'Yoke Strike'. When you land ensure that the tips of your fingers almost come together and that your wrists are level with and close to your shoulders.
- 4) Slightly move your L foot fwd into L Walking Stance as you put your R arm on top of your L arm to form an 'X' before you suddenly pivot 180° to strike attacker on the lower jaw with a R Outside Knifehand Strike.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

6: Bear hug from behind with arms free

- 1) R Punch over your shoulder into attackers face before you simultaneously grab hold of a finger by the base on the attackers L hand. Your feet should be shoulder width apart
- 2) Twist finger to the left (slowly in class, sharply in real life) as you move your L foot forward into walking stance.
- 3) Quickly pivot your right foot 180° to your left so that you have cleared some distance from the attacker and you are facing them in L Guarding stance (L leg forward)
- 4) Step in with R foot and land a R Jab Punch on the attackers nose immediately followed by a reverse L Inward Elbow Strike to the attackers R jaw by moving your R leg forward and to the side so you finish this combination in R Forward Stance (R leg forward)
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

7: Strangle hold with one arm from behind

- 1) With your Right hand pull down on attacker's forearm to clear your airways then immediately strike backwards with a L Elbow strike into attackers L rib cage. Keep feet shoulder width apart.
- 2) Move your L foot forward slightly into L walking stance and then immediately pivot your R foot 180° to your left and land in L Guarding stance (L foot forward)
- 3) Drive R Heel into attackers R knee with a low R Push Kick
- 4) Land in R forward Stance and strike base of attackers skull with a reverse L Ridge hand strike.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Unarmed Self Defence

8: Full Nelson

- 1) Stomp on the attackers R instep with your R foot. Quickly move so you close the distance between your back and the attacker's front
- 2) Simultaneously grab hold of a finger by the base. Your feet should be shoulder width apart Twist finger to the L on the left hand or to the R on the right hand (slowly in class, sharply in real life) as you move your L foot forward into walking stance.
- 3) Quickly pivot your right foot 180'to your left so that you have cleared some distance from the attacker and you are facing them in L Guarding stance (L leg forward) before immediately pivoting to your right (your back) with R Reverse Back kick
- 4) Land in R forward Stance (R foot forward) and quickly grab attacker by the hair or head and pull them forward and down to strike them with a L Knee Strike.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

9: Head Lock

- 1) With L hand sharply dig into the soft fleshy skin behind the attackers R knee and pinch the nerve as you simultaneously stomp on their R instep with your R foot.
- 2) While still bent over simultaneously twist your body and step 45' forward with your R foot and position yourself with bent knees so your R hip is making contact with attackers R hip as you reach up and place your open R hand on attackers chest.
- 3) Quickly push your open R hand up the attackers chest and onto their chin as you straighten your legs and stand upright while pushing the attacker to your left. As attacker becomes off balance keep pushing them until they hit the ground while maintaining a hold on their R arm
- 4) As attacker lands on the ground immediately position yourself to be standing at a 45' angle to their prostrate body in guarding stance with your L leg forward and use a R Axe kick to finish.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

10: Charge Down

- 1) As the attacker moves in simultaneously reach out and grab them either by the back of the skull or hair and step slightly back and to the left.
- 2) Keep moving slowly back and to the side to keep the attacker one arm's length distance away while you bend your legs and push the attacker face down towards the ground.
- 3) As they land on the ground quickly let them go and move 45' to the left and towards them in L guarding stance (L leg forward)
- 4) Quickly kick attackers face with a low R Front snap kick before landing in R guarding stance (R leg forward) and crouching down and striking the back of attacker's skull with a low reverse L Punch.
- 5) Quickly stand up and step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife Defence 1 - 7

Knife held in right hand

Knife 1:

Forward thrust knife attack

Knife 2:

Horizontal Right to Left slashing knife attack

Knife 3:

Horizontal Left to Right Horizontal slashing knife attack

Knife 4:

Diagonal rising knife attack from Left low to Right high

Knife 5:

Diagonal downwards knife attack from Right high to Left low

Knife 6:

Vertical upward knife attack

Move 7:

Vertical downward knife attack

* Please note that the following moves are described with the attacker holding the knife in their Right arm. For Left side attacks reverse each technique

Key points for each self defence technique:

1: Effectiveness 2: Control 3: Distance 4: Precision

Knife 1: Forward thrust knife attack

- 1) Slide 45° to the side in L Guarding stance (L leg forward)
- 2) Quickly kick the attacker's wrist of their knife holding hand (R hand) with a R Front Snap Kick and recoiling leg back so as to land back in L Guarding stance (L leg forward) before immediately again kicking the attacker under the chin with another R Snap Kick.
- 3) Land in R Guarding stance (R leg forward) and immediately landing a reverse L Cross punch on attacker's lower R Jaw.
- 4) Immediately strike the attacker's L Jaw with a R Inward Elbow strike.
- 5) quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife Self Defence

Knife 2: Horizontal Right to Left slashing knife attack

- 1) L foot back before quickly kicking the attacker's elbow of their knife holding hand (R hand) with a L Inside swinging kick. * Let knife pass and kick on the apex of the swing before it comes back
- 2) Before your L leg lands on the ground immediately chamber your L leg and again kick the attacker's R knee with a L Side Kick
- 3) Land in L Guarding stance (L leg forward) and immediately strike attacker's L jaw with R Ridge Hand strike
- 4) Immediately strike attacker again on their R jaw with a L Ridge Hand strike
- 5) quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife 3: Horizontal Left to Right Horizontal slashing knife attack

- 1) L foot back before quickly kicking the attacker's wrist of their knife holding hand (R hand) with a L Outside swinging kick * Let knife pass and kick on the apex of the swing before it comes back
- 2) Before your L leg lands on the ground immediately chamber your L leg and again kick the attacker's R knee with a L Side Kick
- 3) Land in L Guarding stance (L leg forward) and immediately strike attacker's L jaw with R Ridge Hand strike
- 4) Immediately strike attacker again on their neck with a L Kal Jebi Hand strike
- 5) quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife 4: Diagonal rising knife attack from Left low to Right high

- 1) Slide 45' to the side in L Guarding stance (L leg forward) and grab attacker's knife holding arm (R arm) near their elbow with your R hand.
- 2) Immediately slide your R hand down their arm and grab their wrist and twist it in an anticlockwise direction as you pull their arm down while you simultaneously swing your L arm up so that you strike them on the back of their elbow joint while you are standing in L walking stance.
- 3) Chamber L Arm and then slide towards attacker landing in Horse riding Stance and strike their R jaw with a L Assisted Side Elbow Strike.
- 4) Immediately move your L foot from 'tight rope to train tracks' and land in L Forward Stance and strike attacker under their chin with a R Inside Elbow Strike.
- 5) quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife Self Defence

Knife 5: Diagonal downwards knife attack from Right high to Left low

- 1) Quickly kick the attacker's elbow of their knife holding hand (R hand) with a R Low Twisting kick
- 2) Immediately chamber your R leg back again kick the attacker's face with a R Axe Kick and landing in R Guarding stance (R leg forward)
- 3) Immediately strike attackers L lower jaw with a R Jab punch immediately followed by a L Hook punch to the attackers R upper jaw
- 4) Lift R Leg up and simultaneously jump up and back to strike attacker under their chin with L Jumping Front snap kick landing in L Guarding stance (L leg forward)
- 5) quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife 6: Vertical upward knife attack

- 1) Slide 45' to the side in L Guarding stance (L leg forward) and quickly strike attacker's R hip joint at 45' with a R Push Kick.
- 2) Immediately chamber your R leg back again and slide to the correct distance to kick the attacker's wrist on their knife holding hand (R hand) with a R Outside swinging kick and chamber leg back to land in L Guarding stance (L leg forward)
- 3) Immediately strike attackers R knee with your heel with a low R Push Kick landing in R Guarding stance (R leg forward)
- 4) Chamber R arm and strike down onto the R side of attacker's neck with a R Inside Knife hand strike (palm down)
- 5) quickly step R foot back and move well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Knife 7: Vertical downward knife attack

- 1) Slide 45' to the side in L Guarding stance (L leg forward) and grab attacker's knife holding arm (R arm) with both hands near the wrist
- 2) Immediately sink into Horse riding and utilise the momentum of the attacker's downwards thrust to drive their knife into their R thigh. *Ensure you do not bend your back
- 3) Immediately move your L foot from 'tight rope to train tracks' and land in L Forward Stance and strike attacker on the lower R jaw with R Inside Elbow Strike.
- 4) Slide back in L Guarding stance (L leg forward) and strike the L side of attackers face with a R Turing Kick and landing in R Guarding stance (R leg forward).
- 5) Quickly step R foot back and move well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club Defence 1 - 7

(Club held with both hands stepping forward with Right foot)

Club 1:

Forward thrust club attack

Club 2:

Horizontal Right to Left club attack

Club 3:

Horizontal Left to Right club attack

Club 4:

Diagonal rising club attack from Left low to Right high

Club 5:

Diagonal downwards club attack from Right high to Left low

Club 6:

Vertical upward club attack

Club 7:

Vertical downward club attack

* Please note that the following moves are described with the attacker holding the club with both hands and stepping forward with their Right foot. For Left side attacks reverse each technique

Key points for each self defence technique:

1: Effectiveness 2: Control 3: Distance 4: Precision

Club 1: Forward thrust club attack

- 1) Slide 45° to the side in L Guarding stance (L leg forward)
- 2) Quickly kick the attacker's R Elbow with a R Front Snap Kick and recoiling leg back so as to land back in L Guarding stance (L leg forward) before immediately again kicking the attacker under the chin with another R Snap Kick.
- 3) Land in R Guarding stance (R leg forward) and immediately landing a reverse L Cross punch on attacker's lower R Jaw.
- 4) Immediately strike the attacker's L Jaw with a R Inward Elbow strike.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club Self Defence

Club 2: Horizontal Right to Left club attack

- 1) L foot back before quickly kicking the attacker's R Elbow with a L Inside swinging kick
* Let club pass and kick on the apex of the swing before it comes back
- 2) Before your L leg lands on the ground immediately chamber your L leg and again kick the attacker's R knee with a L Side Kick
- 3) Land in L Guarding stance (L leg forward) and immediately strike attacker's L jaw with R Ridge Hand strike
- 4) Immediately strike attacker again on their R jaw with a L Ridge Hand strike
- 5) Quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club 3: Horizontal Left to Right club attack

- 1) L foot back before quickly kicking the attacker's R wrist with a L Outside swinging kick
* Let club pass and kick on the apex of the swing before it comes back
- 2) Before your L leg lands on the ground immediately chamber your L leg and again kick the attacker's R knee with a L Side Kick
- 3) Land in L Guarding stance (L leg forward) and immediately strike attacker's L jaw with R Ridge Hand strike
- 4) Immediately strike attacker again on their neck with a L Kal Jebi Hand strike
- 5) Quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club 4: Diagonal rising club attack from Left low to Right high

- 1) Slide 45° to the side in L Guarding stance (L leg forward) and grab attacker's R arm near their elbow with your R hand.
- 2) Immediately slide your R hand down their arm and grab their wrist and twist it in an anticlockwise direction as you pull their arm down while you simultaneously swing your L arm up so that you strike them on the back of their elbow joint while you are standing in L walking stance.
- 3) Chamber L Arm and then slide towards attacker landing in Horse riding Stance and strike their R jaw with a L Assisted Side Elbow Strike.
- 4) Immediately move your L foot from 'tight rope to train tracks' and land in L Forward Stance and strike attacker under their chin with a R Inside Elbow Strike.
- 5) Quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club Self Defence

Club 5: Diagonal downwards club attack from Right high to Left low

- 1) Quickly kick the attacker's R elbow with a R Low Twisting kick
- 2) Immediately chamber your R leg back again kick the attacker's face with a R Axe Kick and landing in R Guarding stance (R leg forward)
- 3) Immediately strike attackers L lower jaw with a R Jab punch immediately followed by a L Hook punch to the attackers R upper jaw
- 4) Lift R Leg up and simultaneously jump up and back to strike attacker under their chin with L Jumping Front snap kick landing in L Guarding stance (L leg forward)
- 5) Quickly slide back and well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club 6: Vertical upward club attack

- 1) Slide 45' to the side in L Guarding stance (L leg forward) and quickly strike attacker's R hip joint at 45' with a R Push Kick.
- 2) Immediately chamber your R leg back again and slide to the correct distance to kick the attacker's R wrist with a R Outside swinging kick and chamber leg back to land in L Guarding stance (L leg forward)
- 3) Immediately strike attackers R knee with your heel with a low R Push Kick landing in R Guarding stance (R leg forward)
- 4) Chamber R arm and strike down onto the R side of attacker's neck with a R Inside Knife hand strike (palm down)
- 5) Quickly step R foot back and move well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'

Club 7: Vertical downward club attack

- 1) Slide 45' to the side in L Guarding stance (L leg forward) and quickly step R leg forward so that your R hip and the attacker's R hip meet.
- 2) Simultaneously grab attacker's R wrist in a 'figure 4' lock with both hands.
- 3) Immediately push attacker down and over your R knee while keeping hold of their R arm.
- 4) As attacker lands on the ground position yourself to be standing at a 45' angle to their prostrate body and immediately wedge their elbow joint and shoulder against your R leg and apply pressure to their wrist (slowly in class, quickly in real life) until they submit by tapping.
- 5) Quickly step R foot back and slide back well away from attacker in L guarding stance (L leg forward).
- 6) Holding guard until attacker bows, then bow to attacker and move back to 'choombi'
