

Welcome to Little Dolphins!

The Shire Martial Arts Little Dolphin's program has a specific curriculum designed to teach children important life skills, in a fun, exciting and inclusive manner.

We teach your child co-ordination, concentration, self control, focus, discipline and more, utilising a unique method we call *Edu-fun*.

Your child will learn MORE than how to kick and punch. They learn SKILLS for LIFE.

The Little Dolphin's Program will keep your child physically fit and the group activities teach children the benefits of co-operative behaviour. Most importantly, the class curriculum encourages your child to try their best both in and outside of the class room.

Little Dolphin's reinforces family values

Many of the lessons you are teaching your child at home, are consistently reinforced through class room discussions. Topics such as: self discipline, respect for oneself and others, following directions, team work, and much more.

Here's how we help your child build confidence, learn to set goals and develop a positive outlook on life.

At the end of each class, students line up and receive a special sticker on their attendance booklet. When their book has 4 stickers, they receive a special stripe or 'tip' on their belt.

The belt tips are an incentive and a recognition of their achievement. Once a Little Dolphin has earned 3 tips, they move onto the *next* coloured belt. (See our [Little Dolphin's video](#)).

Little Dolphins prepares your child for life in the BIG world.

We teach your child to enter society with a confident and enthusiastic outlook and approach.

Little Dolphins become better school students, better listeners and are motivated to work towards their future goals.

Before long, Little Dolphins graduate into Big Dolphins and eventually, they will enter our Shire Martial Arts Junior Black Belt program.
